

St John the Baptist Church
Our churchyard wall and steps need urgent attention

Major repairs will begin on 11th September

During this time the church steps will not be accessible
Access to the church will always be possible via the path

Please note:

To avoid severe congestion, the works are being carried out in a restricted work-space. Whilst every effort will be made not to inconvenience pedestrians and vehicles, please be aware that the available pavement space will be restricted, and it will not be safe to park whilst work is taking place.

For your convenience and safety

It is advisable to park elsewhere when dropping off and collecting children

The churchyard:

The workmen are aware that this is a sensitive area, and will treat it with respect. Every effort will be made to ensure that no graves or ashes plots will be disturbed during the works.

It will always be possible to visit and tend your loved one's resting place whilst works are being carried out.

If you have concerns, please contact Revd Fran or one of our churchwardens.

We are grateful to the East Riding of York Council, for their careful maintenance of our churchyard and for overseeing and funding this project
